TRADING HALT

Pursuant to Listing Rule 17.1, Neurotech International Limited (ASX: NTI) (“the Company”) requests a trading halt for its securities for pre-open on Monday 25 September 2017. The trading halt is requested pending the announcement by the Company of a progress update on the independent US clinical trial of Mente Autism.

The Company is not aware of any reason why a trading halt should not be granted.

The Company’s securities are to remain in trading halt until the earlier of the commencement of normal trading on Wednesday 27 September 2017 and when the progress update announcement is released to the market.

For personal use only

Neurotech is focused on the development and commercialisation of technological solutions for the diagnosis and treatment of such conditions, starting with autism.

Mente Autism is a clinical-quality EEG device that uses neurofeedback technology to help children with ASD. Designed for home use, Mente Autism helps relax the minds of children on the spectrum which in turns helps them to focus better and engage positively with their environment.
